AUTOMOTIVE

Service Beyond Expectation

April is National Car Care Month!

In April, as winter comes to an end, it is time to get your car ready for spring driving and summer road trips! National Car Care Month reminds you to take care of any issues that may have occurred or been ignored during winter. Spring driving brings its own hazards such as slick, wet roads. It is important to make sure your tires, brakes and windshield wipers are ready for the rain.

Women's Car Care Clinic

We'll start on May 23 at 6 p.m. with wine and hors d'oeuvres, followed by introductions before starting the clinic at 6:30 p.m. Our goal is for you to feel comfortable and confident discussing your vehicle's maintenance needs with your auto mechanic. These lessons and demonstrations will give you the vehicle knowledge you need to communicate confidently during your next visit. Fabulous door prizes, including a free set of tires will be offered during this event that you don't want to miss.

Please contact Angie at 618-939-5855 or email angie@waterlooautomotive.com to register as seating is limited.

Get to know Brad!

Brad Shoultis is an ASE Certified Master Technician and Bosch Master Technician.

Our Ace! Brad has been with us for a lot more years than he or I care to admit. A tremendous technician, team member, and mentor for our young guys. Not to mention a great dad and very proud Granddad! We are so very fortunate to have him on our team.

WE'RE FEELING SOCIAL LATELY
